TRILLION BITS

ABOUT US

all know how hard it can be to make a solution to manage a business successfully. We partner with technology businesses globally helping them to build successful engineering teams and create innovative software products.

WHY US?

We have highly skilled engineers with excellent technical knowledge and experience in using latest software standards, tools, platforms, frameworks and technologies. We are a reliable partner, managing dedicated nearshore teams for software development. This experience is illustrated by a large portfolio of successfully delivered projects.

VISION AND MISSION

To grow current position and get a larger market as well as to provide the simple IT solutions to client. We understand the client's requirement, analyse it and provide the best IT solutions. We satisfy our clients by our services and implements it with more effective software solution strategies.

Digital Prescription System in Bangladesh

We feel proud as Bangladeshis, We came up first with an effective medical solution in Health Science.

The idea came from a neurology professor's desire to build a medical system with the help of technology, after designing the system one day this professor meets a Software Architect and this Medical Solution came out in reality.

Imagine a personalized and safe prescribing system that allows to easily create and print prescriptions quickly and efficiently that makes life more productive.

how to work: Doctor:

- ✓ Doctor can register using his credential
- ✓ Disease Template setup
- ✓ Print using pad or without pad
- ✓ View all drug list

প্রিণ্টেবল প্রেসক্রিপশন সহজেই পাবে মূঠোফোনে

সহজ প্রেসক্রিপশন প্যাড সফটওয়্যার

BuildFaire

The Most Powerful App Maker For iOS & Android

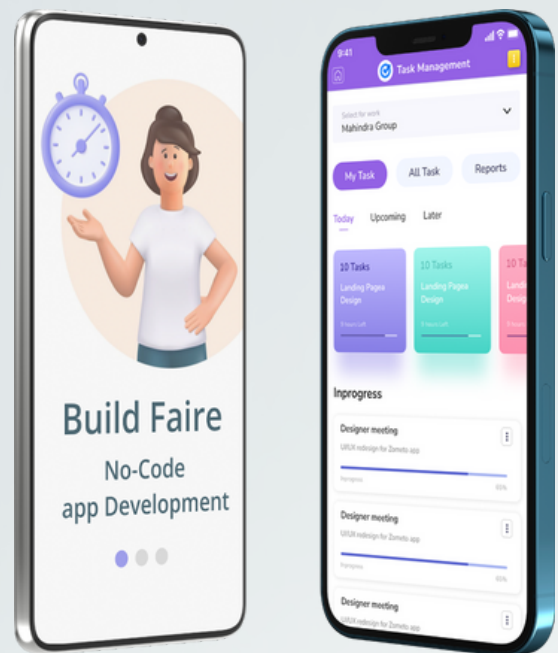

BuildFaire is a easy & user-friendly software platform that allows anyone to create an Android or iOS mobile app and its matching cloud application for data management without the need to write a single line of software code. It's an intuitive platform that businesses and individuals can use to instantly create apps without having to know anything about software development.

Engineering resources can be risky. When they leave, they take your software knowledge with them. Reduce risk by making your own apps.

No-Code Platform Features

- ✓ BuildFaire Developers
- ✓ Analytics Dashboard
- ✓ Platform Features
- ✓ Send Notifications
- ✓ Build Workflows
- ✓ Drag & Drop
- ✓ GeoFencing
