Profile of Ogroni Informatix Limited

Ogroni Informatix Limited is a software company that implements enterprise software to manage business operations and customer relations. We believe business software should cover complex needs without being complicated.

At Ogroni Informatix Limited, our primary objective is to empower our clients with exceptional ERP software solutions that drive Business Intelligence. We achieve this by leveraging cutting-edge technology and a strategic mindset to automate processes, eliminate bottlenecks, and help your company thrive as you envision.

Why Ogroni?

- Experienced, Efficient, and Professional Developers at Your Service
- Zero Compromise with Quality
- Long Term Relationships with Existing Clients
- Operations in USA, Canada, Malaysia, and Bangladesh
- Focus Mostly on Web-based and Handheld Applications
- Responsible for the Return of Your Investment, that is, Your Expected ROI
- 24X7 Maintenance

Value Propositions for Your Business

Our Team at Ogroni Informatix offers you with best services for every project we undertake. We not only ensure successful implementation of your project but also ensure to work with clients as a technology partner rather than a general vendor offering end to end services.

Our Business Software and Enterprise Solutions ensure smooth working of your Business Processes. We know that every client is important for us and that's why we never do any compromise with quality. We offer various services such as Enterprise Resource Planning (ERP) implementation, eCommerce Website Development, Mobile App Development, Cloud Computing, Digital Marketing

and so on. Our Development Team is based in Bangladesh and have provided many successful solutions to our clients across the world.

We work in multiple time zones as per the clients' requirements to ensure smooth communication and implementation.

Technology Tact

We offer our customers with simplified and successful implementations for Odoo ERP (former OpenERP), Magento, Drupal, WordPress, Android, iOS apps, which increase the ROI. Our resources are well versed with the products from designing, development, customization till final delivery of the projects.
