Codemanbd

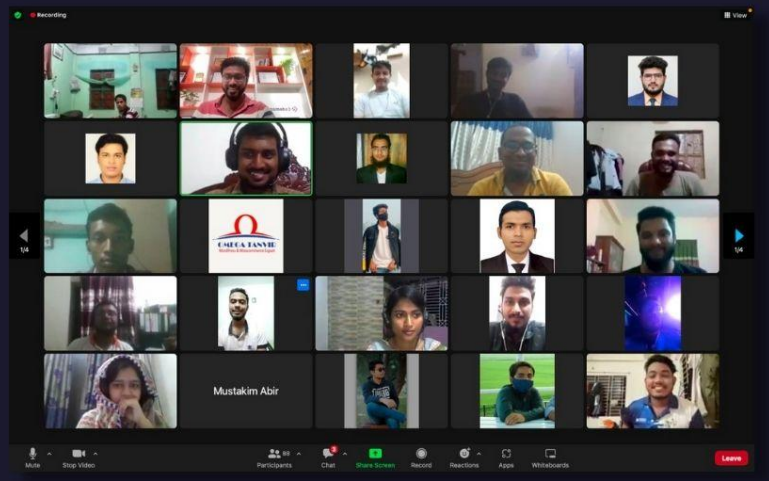
Our Values

Distance Learning / Online Learning

In 2017 we introduced distance/ online learning first in Bangladesh. Because we understood the importance of online learning before 5 years.



Codemanbd

Online Learing Facilities

Codemanbd

Flexibility:

Many students can't attend offline classes as they stay in rural areas. Among the many benefits of an online learning, you'll find virtual classrooms are great for people who are advancing their education while working.

Reduced Costs:

Offline Education is kind of expensive, but virtual learning can provide a number of ways for students to save.

Increased Collaboration

Online students have better opportunities to collaborate with classmates through virtual group work and meetings.

Offline Learning

CodemanBD has offline batches also, We have campus in dhanmondi, dhaka and nearby students can come to learn in offline physically that make them confident enough and get instant support daily from our support team.

Arrange industrial attachment every year with 50+ government & private polytechnic institute

codemanbd

Codemanbd has ongoing contracts with **50+ government & private polytechnic institutes** and every year from a diploma in computer science & technology department we train “Industrial Attachment” program.

This is our most important value for any new learners. **15+ marketplace experienced** support members are providing valuable and quality support to the students roster wise in online and offline. Any student can get **24/7 instant live support.** When the students have such support they become confident and flexible. They can take below supports from our us:

1. International client support
2. Video Communication support with clients
3. Marketplace work related support
4. Topic/ Content related support
5. Assignment/ Mid term/ Final exam support

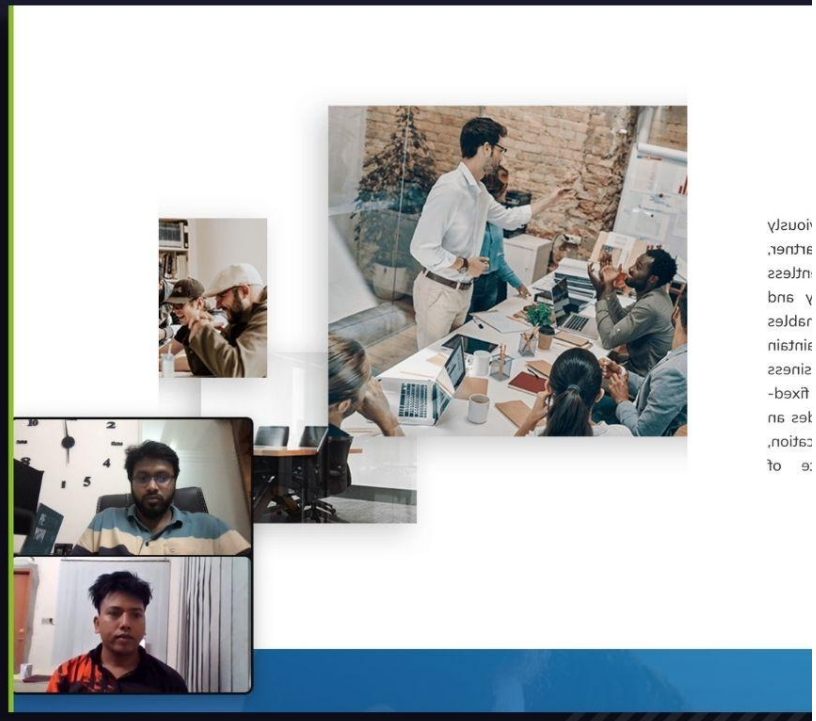
Learning on all devices

Student can learn from any devices: like desktop, laptop, tab or mobile.

codemanbd

Live 1-on-1
Private Tutoring

Beside the baches We have option to lean Live 1-on-1 Private Tutoring from our expert mentors from anywhere.



codemanbd

Premium Resources

After completion of skill development students have to work with clients. In some cases they need premium resources to complete the projects. We provide premium tools, softwares and resources for free to our students.

codemanbd

Expert Mentors

Mentors encourage and enable another person's professional or personal development. A mentor can help focus their efforts by setting goals and giving feedback. By establishing trust, the mentee understands that constructive criticism aims to build their professional growth rather than make them feel bad. We have 10+ industry expert mentors who are engaged online, offline and one on one teaching.

codemanbd

Community Engagement in awareness building and development

In Every month CodemanBD arrange few seminars & career events and awareness programs in private and public Universities and we try to make the students aware about learning soft skills, virtual skills and we focus on the word **“Earn While You Learn”**

Codemanbd

Future plan for next 5 years.

CodemanBD's mission is to redefine how the world learns through relentless effort and innovation, breaking the barriers to quality education, and helping to build a learning ecosystem that will create skillful professional for local and international industry. Besides, our target is to make people believe that "any age's people from any background" can do skill development and earn from local and international marketplaces and bring remittances for our country and reduce poverty for their family.

Codemanbd

Highest Value Project Successfully Completed

In 2017 Minhazul Asif & Codemanbd managed **UNDP's Youth Employment** through IT Skills project in slums. There we trained 300+ students for free who did not have any basic computer skills. But within four-month, they learned Web Research & Support and data entry skills and became very successful in the freelancing marketplace.

We also working on online learn & earn training program under **"Bangobandhu Foundation" in 34+ districts.**
