flashback

Through this flashback let's have a brief history of **Global IT & Language Ltd.**
Twentieth Century

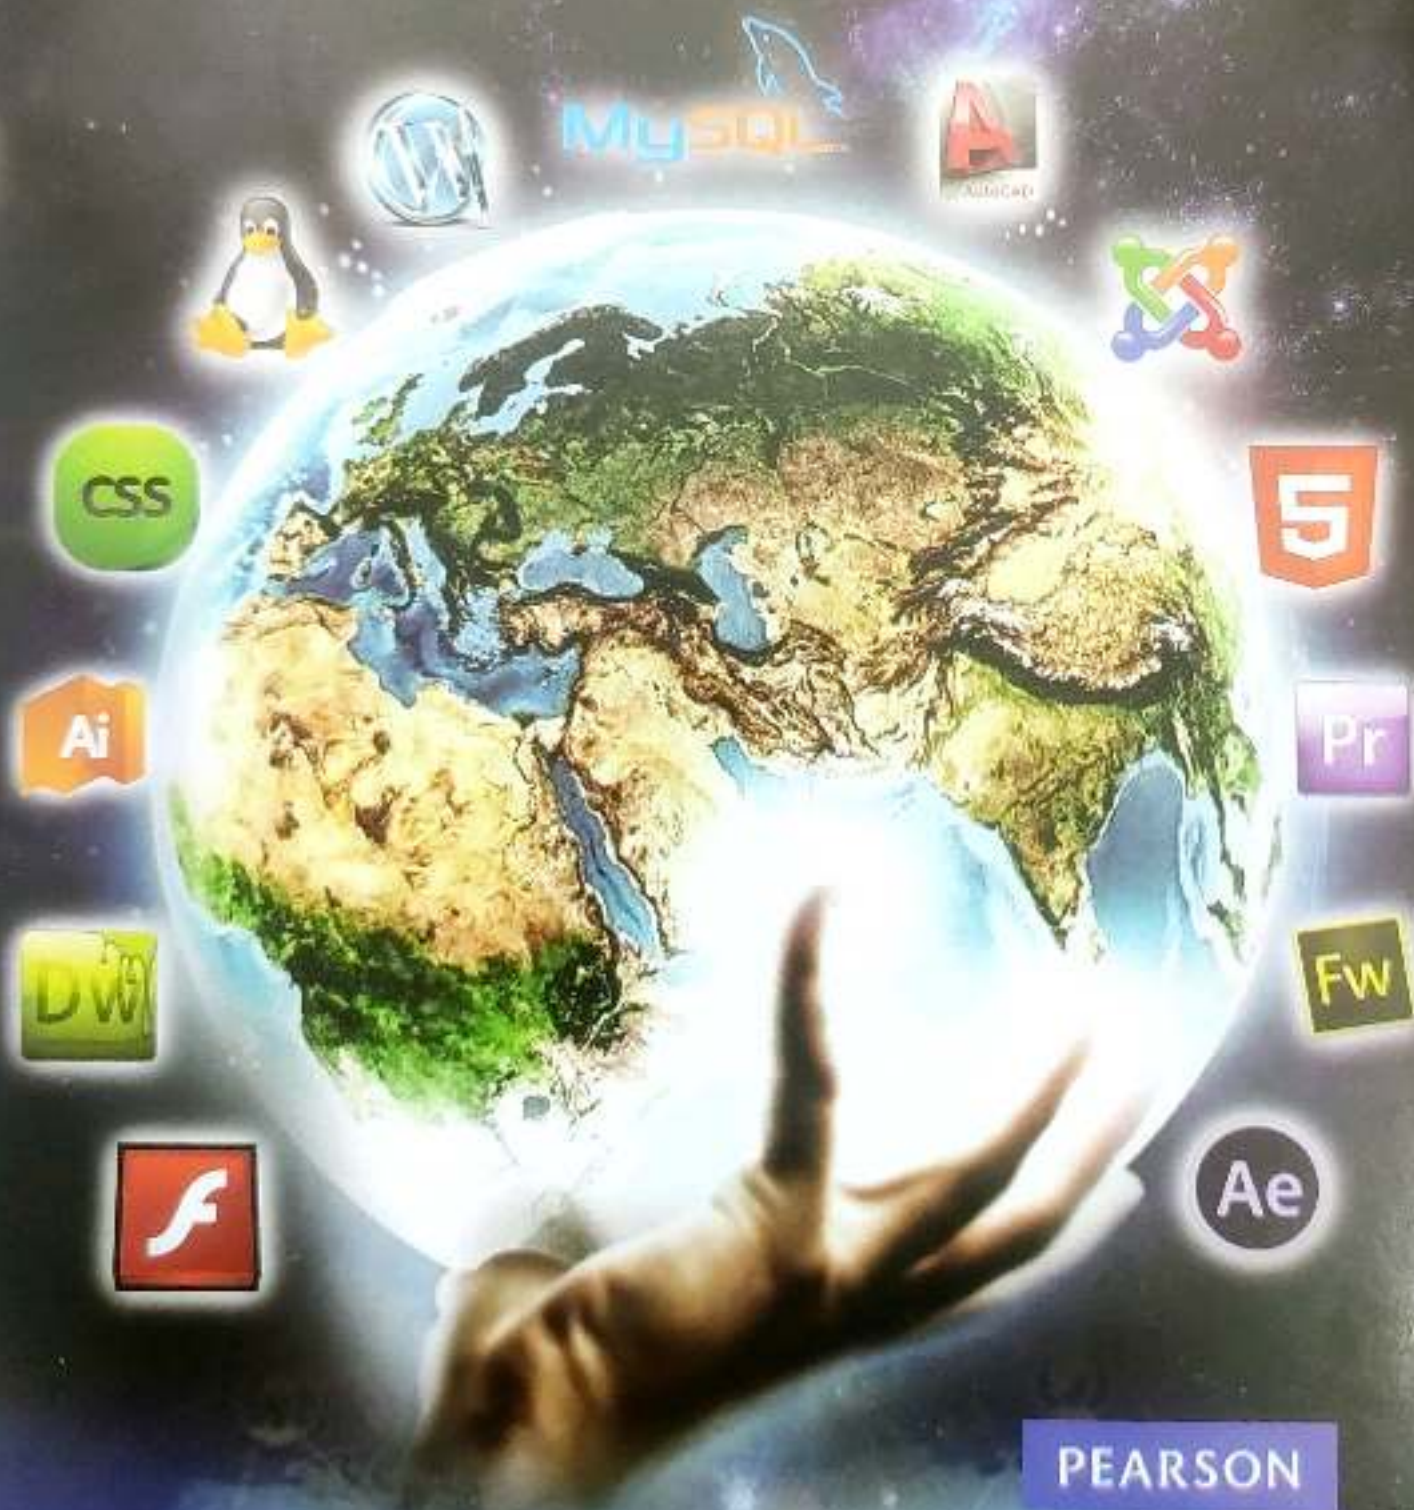

With a very small scope based on bold steps and encouragement of the founders - **Md. Faridul Alam & Md. Shahidul Islam** - **Global** took initiatives to establish itself as an educative and vocational service-oriented institute to meet the increasing demands of skilled human resources of Bangladesh in 1998. From that starting point with just one branch (which is at present the main branch) at farmgate **Global** has been serious and sincere to provide its clients with the then limited tangible and intangible resources.

Twenty-first Century

In the twenty-first century its gradual progress in launching different short & level courses of different languages and in IT training through the years has brought **Global** to such a platform where about thousand students of different languages and IT, as Shown Diagrammatically bellow, complete their courses with success every year under the cordial guidance of administration and instruction handled by the managers and the instructors respectively. Although the efforts done so far are not sufficient, **Global** has been able to fulfill an iota of the vast global demands having trained up more than 30,000 students, as observed in the diagram, scattered in more than 35 countries all over the world.

Introduction

Taking our socio-economical infrastructure and lower middle-class into consideration **Global** has generally outlined its course plan with moderate fees on the basis of three-monthly and six-monthly duration as mentioned later. But in some IT courses **Global** organizes even a long course of one year. **Global** tends to maintain all the IT courses in the following manner :

In the IT wing software development, web & Apps development, maintenance, online & offline support, etc are being trained in keeping pace with the changing trends of global IT.

Realizing that the dream of digitalization will come into being only if the true implementation of IT services can be available in the remote areas of Bangladesh and without it we cannot even think of any modern development, **Global IT & Language Institute Ltd.** has been providing IT training since 1998 with the state-of-the-art facility. Our fully digitalized multimedia-based lab provides the expected service to the knowledge-seekers. The lab is equipped with highly configured mechanism and compatible with the latest versions of software.

On the basis of the current demands **Global** has started website and web application development including the following services for our respectable clients.

- Domain registration and hosting
- Design and UX
- E-commerce solution
- Web application development
- CMS website development

Outsourcing : In order to help its clients earn money easily, **Global** has started training them in outsourcing through different short term courses and becoming a successful freelancer. So far **Global** has been able to attract many international clients who contribute to generating foreign currency.

few words

Hinging upon a modernism-prone synthesis of concept of digitalization and concept of multi-cultural diversity **Global** has long been nurturing its vision of transforming the human beings into resources and mobilizing those human resources towards the development of Bangladesh keeping pace with the new liberal market of economy. So, from the very inception (1998) **Global** started its visionary journey focusing on two enlightened approaches—developing human resources through IT and making them able to get accustomed to the new foreign environments through languages. Keeping in its modus operandi those two approaches **Global** was bent on advancing step by step with just opening English language courses and IT with very little facilities. But with the passage of time **Global** came to realize that the needs of multiple languages of multi-cultured nations would arise in the era of globalization in such developing countries like Bangladesh where most of people would be suitable skilled labours around the world. From that realization **Global** started from 2005 arranging different short courses of 20 languages based on basic grammars considering that the Bangladeshi skilled and trained workers and students would at least be able to communicate with others and develop their language capacity by themselves with their basic grammatical knowledge. With a view to accommodating those languages and IT trainings to the increasing demands of the learners of different classes **Global** has so far been able to set up such a platform as to transform tactless and unskilled human resources into the smartest ones having the capabilities of coping with any new challenging environment.

বাংলা ও ইংরেজি-এই দুটি ভাষার উপর আমাদের প্রতিষ্ঠান বিশেষ গুরুত্ব দিয়ে আসছে এর প্রতিষ্ঠানগু থেকে। এর নেপথ্যে দুটি প্রাসঙ্গিক কারণ রয়েছে : (১) মাতৃভাষার মর্যাদা ও স্বাধীনতার চেতনা অক্ষুণ্ণ রাখার ভাবিদে আমরা বাংলা ভাষার কোর্স চালু রেখেছি। তবে এই কোর্স শুধু সেসব বিদেশির জন্য যারা আমাদের দেশে দীর্ঘ দিন থাকার ফলে বাংলা ভাষা শেখার আগ্রহী হয়ে থাকেন। (২) ঔপনিবেশিক কারনেই হোক কিবা বাস্তবিক প্রয়োজনেই হোক, ইংরেজির প্রয়োজনীয়তা আমাদের জীবনের প্রায় সব ক্ষেত্রে বিরাজমান।-এই সত্যকে মেনে নিয়ে বিশ্বের অন্যান্য জাতির মতই আমরাও ইংরেজি ভাষা শিক্ষা প্রসারে অবদান রাখার প্রয়াসী! কাজেই বাংলায় আমাদের ৩ মাসের সংক্ষিপ্ত কোর্স রয়েছে: আর ইংরেজিতে রয়েছে জাতীয় ও আন্তর্জাতিক চাহিদা সাপেক্ষে বিভিন্ন কোর্স যথা : স্পোকেন, দীর্ঘ ও স্বল্প মেয়াদী কোর্স ও আই,ই,এল,টি,এস।

The reasons why other languages than English get preference!

In the developing countries like Bangladesh many people would go to different countries around the world mostly for livelihood and some others for education. Different people of different nationalities, especially the investors for economical interest would come to our country for the interest of cheap labour. To meet the national and international demands other languages are getting preference day by day beside English

Dear Well-Wishers

In this era of globalization different developed and underdeveloped countries are taking innovative service-oriented steps prone to economical gains with the help of well-trained human resources. In order to get those trained human resources the rich and developed countries have to depend on those underdeveloped and developing countries that have the capacity to develop such trained manpower as to meet the needs of the developed countries in the sectors based on IT and language. With a view to being a respectful part of this globalization Bangladesh has not lagged behind with its public and private sectors. Along with those sectors **Global IT & Language Institute Ltd** came to contribute to the development of manpower with its two wings such as IT and Different Language programmes. Upon realizing the quick advancement of globalization **Global** didn't take any pause for a moment to think but to go ahead with whatever resources it possessed. With the passage of time **Global** has reached the present platform where there are two enriched service-oriented sectors—one providing IT education and the other organizing different language programmes on the basis of course duration—leading its every student to such a level of confidence where s/he herself/himself would be capable of deciding what to do for mapping her/his own future plan.

So, we do expect always a helping hand to be extended by our enlightened well-wishers from every corner of the world in implementing our noble goal set on the developing principles of globalization.

OUR SPECIALITY

Our specialty lies within our achievements and special steps to ensure that everyone gets chance for learning any language with his/her minimum educational backgrounds.

Global vision : All the languages used officially in United Nation are being taught sophisticatedly in our Institute!

General achievements : as per the number of enrollments both in multiple languages and IT courses **Global** must be one of the successful private educational institutions in Bangladesh. From its inception to 2018 **Global** has trained up about 30,000 students in 20 languages and IT courses.

Superb achievements : Many students are studying and doing different jobs in more than 35 countries around the world. Among them some are special ones who work in favour of United Nation and are lecturers in few Japanese universities. Besides, in this country some of our students are BCS cadres serving now in department of Justice and department of police.

Recruitment of superb instructors: Considering the massiveness of the language wing of 20 languages **Global** takes pragmatic steps to recruit any instructors. So, most of our instructors know at least two languages.

Remarkable result in IT : Almost 99% of our students appearing in examination under the Bangladesh Technical Education Board have shown their brilliance nurtured in **Global** through getting A+.

Gradual progress : By observing yearly enrollment of students both in languages and IT, it is easily understandable that **Global** has been able to sustain its gradual progress from the very inception to date.
