About Us

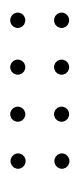

Established in 1989

CompTech are a managed services and telecommunications provider offering award-winning, proven and uncomplicated technical solutions for over 200 organizations across the world with a mission of 'Uniting technology, inspiring people.'

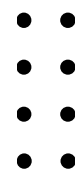

In a world where there is simply too much technology to choose from, our mission is to use our expertise and strategic partnerships to ensure customers get the right solution to their individual requirements from a dedicated partner. With over 100 engineers and consultants we have the depth and breadth of expertise to deliver expert managed services and telecommunications provision, yet we are small enough to care for each and every customer. We specialize in converging IT, communications and connectivity to offer you comprehensive, uncomplicated solutions, proactively supported, that enable your organization to operate without technical headaches

Message from the CTO

Chief Technology Officer at CompTech Network System Ltd

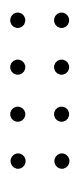

Zahid Eshaque

CTO

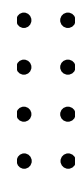

Our North Star, our guiding light, if you will. Our vision: "Pioneering Digital Transformation." We're committed to leading the way in shaping the future of IT solutions. Our mission: "Empowering organizations through innovation, technology, and excellence."

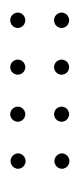

Our Mission

CompTech Network System (Pvt.) Ltd

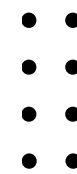

CompTech Network System (Pvt.) Ltd is a trusted system integrator/Solution provider serving to become pioneer in IT solutions with an innovative and revolutionary services. CompTech is serving the market for over 30 years in Bangladesh. It is formed in 1989 and incorporated in 1994. Its key focus is to continuously introduce the new ideas with latest products portfolio and maintain better customer services. Since our establishment, we have been providing complete range of IT solutions including Security, Business Application Deployment, Data Center Design and Commissioning. Our team consists of highly motivated and creative center and cloud environment automation. engineers who are trained in multi-disciplines to enable them provide comprehensive solutions to our valued customers. CompTech believes in its capacity and technology that can lead to sustainable, long-term growth and success based on the values offered to clients. Moreover, modern and equipped research and development center is a key to achieve desired goal, an innovative R&D centric approach we have. in our country an in-built advantage is our huge untapped human resources. Comptech intend to upgrade the knowledge and skill of our people through adopting the technology, which may help to design modern IT system through data

Our Vision

As we look ahead, we aspire to:

Empower Organizations: We see a world where every organization, regardless of its size or industry, can harness the power of connectivity to achieve its goals. We empower businesses to navigate the complexities of the digital era, enabling them to reach their full potential.

Innovate Continuously: We envision an environment where innovation is a way of life. Our vision is to drive continuous improvement, adapt to emerging technologies, and set the standards for cutting-edge network solutions.

Secure the Digital Realm: Our vision extends to a future where cybersecurity is not an afterthought but a fundamental part of every network. We aim to create networks that are not only efficient but also robust, resilient, and impenetrable.

Expand Globally: We see our reach extending far and wide. Our vision is to expand globally, crossing borders and reaching organizations in every corner of the world, making a tangible impact on their growth and success.

Inspire Excellence: We envision inspiring excellence in every team member, partner, and client we collaborate with. Our vision is to foster an environment where creativity and talent flourish, where success is a shared journey, and where the pursuit of excellence is a never-ending story.

IT SECURITY SOLUTIONS

Network Security- we provide solution with PaloAlto, Fortinet, Juniper, TrendMicro, Checkpoint,F5.

SIEM- we provide solution with FortinetSIEM (Native multi-tenancy allows you to manage thousands of tenants, With unmatched vertical and horizontal scalability and an option for Elasticsearch, your business can grow seamlessly, The built-in Ticketing system is a cost-effective alternative to expensive external options, Deploy using the hypervisor of your choice or in a public cloud, automated fail-over/disaster recovery capabilities) and LogRhythm NextGen SIEM Platform, Cutting-edge AI-based technology underpins this traffic and log analysis tool for Windows and LinuxS.

EDR/XDR/MDR- we provide solution with the best suited of TrendMicro and PaloAlto.

IT SECURITY SOLUTIONS

Network Security- we provide solution with PaloAlto, Fortinet, Juniper, TrendMicro, Checkpoint,F5.

SOAR- solution provided by FortiSOAR (Fortinet FortiSOAR is a highly sophisticated solution that offers a great deal of control over threat management. It is praised by users for its ease of integration, though some comment that the creation of playbooks could be simpler. We would recommend Fortinet FortiSOAR to a wide range of use cases thanks to its advanced protection and flexibility. It is particularly suited to SMBs, enterprise, and MSP customers who need an all-encompassing and multi-tenant incident response platform) and Cortex XSOAR (Cortex XSOAR is a powerful solution that gives admin an efficient dashboard to investigate and respond to threats quickly and accurately. Thanks to its integrations and automation packs, Cortex XSOAR is easy to deploy and scale as your organization grows. This solution is especially suited for MSP usage due to multi-tenancy options, and the ability to be deployed in the cloud or on-premises.)

Public/On Prem/Edge Cloud Solutions Based on OpenStack

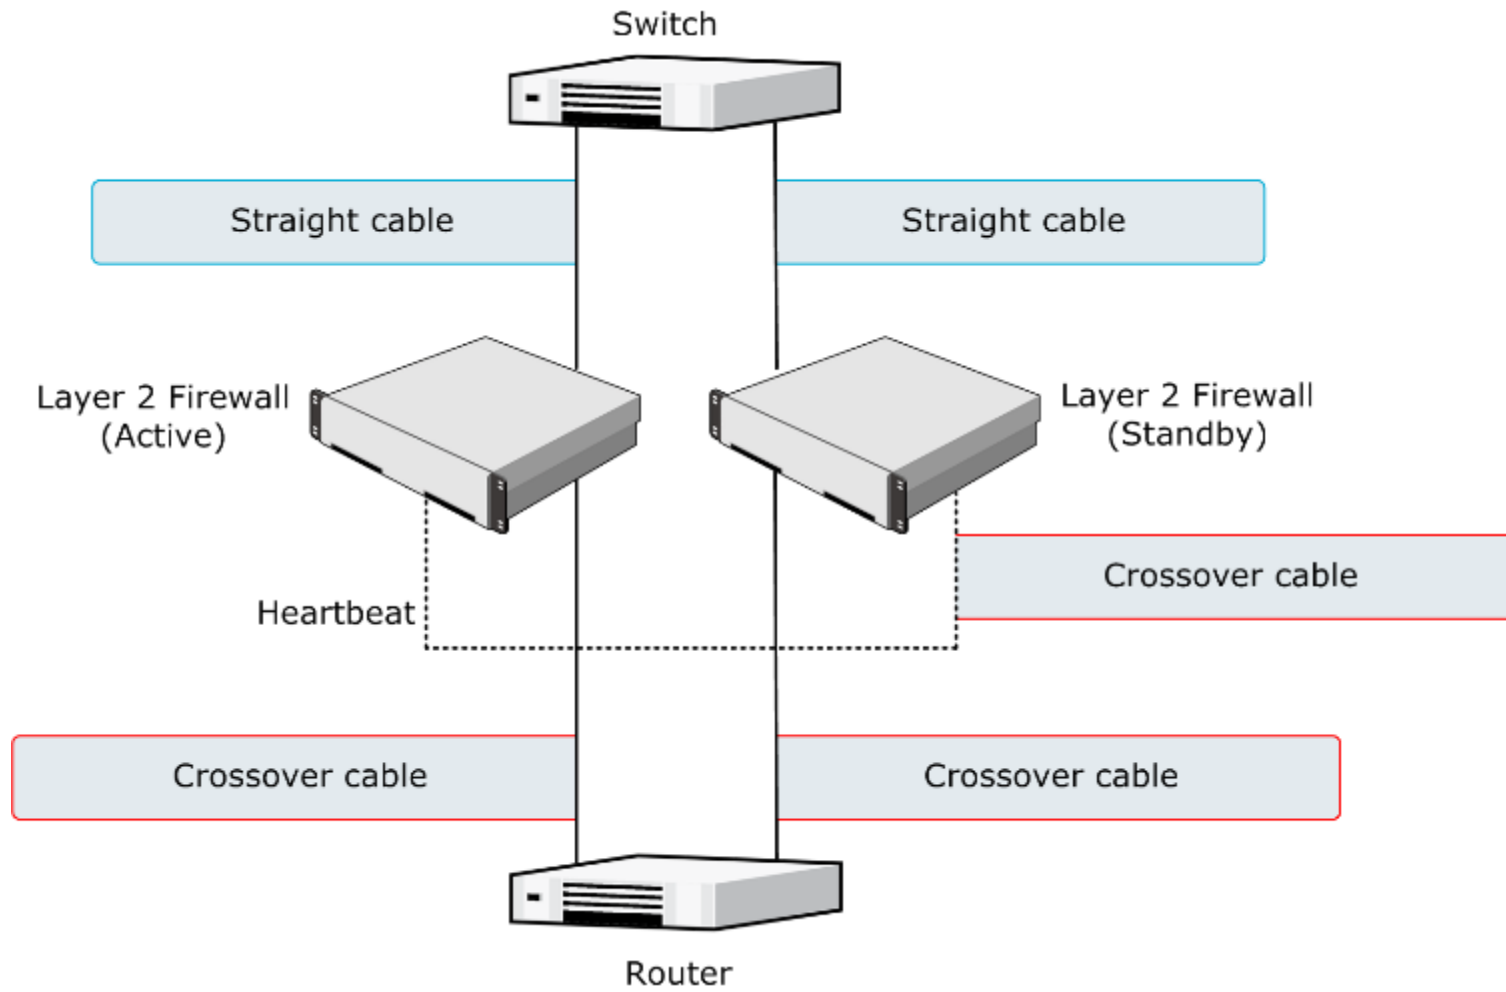

AFTER-SALE SERVICE

CompTech endeavors to provide OnDemand after-sales-services at the customers' premises. Service calls received during the day are invariably attended on the same day, unless a call is received very late.

Under normal circumstances no call is left unattended beyond the next working day. If the circumstances are such that the equipment cannot be repaired at the customers' premises, CompTech humbly requests the customer to send the equipment to the company's service department. In such a case CompTech arrange to repair the equipment in shortest possible time.

If for any reason it is anticipated that the equipment cannot be repaired within a reasonable period, CompTech try to provide a temporary replacement to the customer in order to minimize the customer's down time.

ROUND THE CLOCK SUPPORT

Categories the critical nature of function in the Banking, Telecommunication, other sectors we have a trustworthy arrangement for service and support to those sectors round the clock- 24 hours a day, 7 days a week, 365 days a year. To cater to this service, we have, more than 10 Engineers. our objectives are to meet the customers' requirements and achieve the satisfaction of clients. It helps us to precisely know the status of a product, knowledge of our customers and services provided to each and every equipment. Knowledge of each product, each equipment and every customer goes a long to serve our customers.

OUR SPECIALIZATION- CLOUD SOLUTION

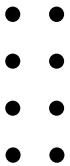

Having a private cloud enables you to get all the benefits of cloud computing with your own control

and security. Private clouds can be built on your on-premise equipment, or on public cloud or a

multi-cloud environment. we build our solutions on Openstack, VMware, Nutanix, AWS outpost,

Azure Arc, HP Greenlake, Google Anthos, Citrix etc. we do solutions on the public and Hybrid cloud as well.
