DevsZone

DevsZone Company Profile

Bridging Innovation and Excellence

MEMBER BASIS

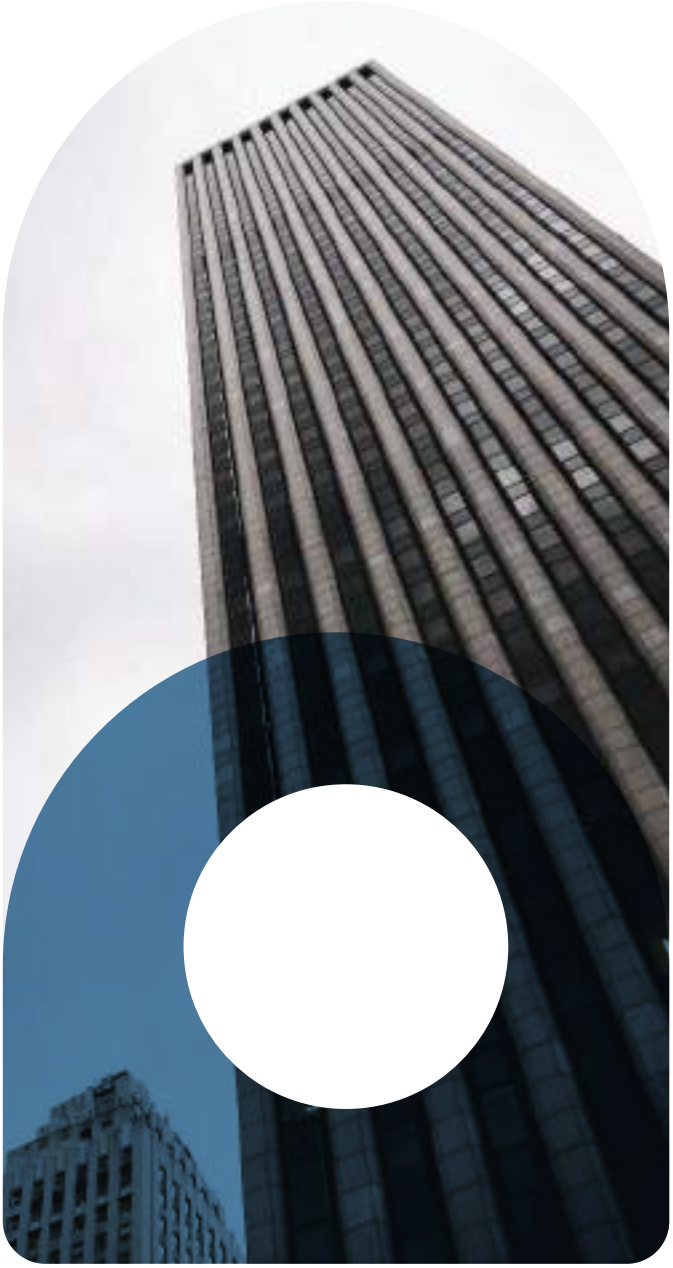
ABOUT US

A dynamic software and IoT solutions company, bridging innovation and excellence.

Our mission is to blend the agility of a startup with the strategic thinking of an enterprise. We specialize in custom software development, AI, and machine learning. Our flagship products include Bidyaan (an advanced education management system), eBillBiz (offering ISP, Dish, and POS billing solutions), and Nirikhon (providing attendance tracking, AI surveillance, and more).

MISSION
& VISION

DevsZone, a dynamic software and IoT solutions company, stands at the forefront of cutting-edge technology.



Mission: To empower businesses with tailor-made software solutions that drive efficiency, productivity, and growth.

Vision: To be the go-to partner for organizations seeking transformative digital experiences.

Explore the future with DevsZone!

OUR PRODUCT

বিদ্যান

A Comprehensive Education Management Solution

Bidyaan is an all-in-one Education Management Solution designed to simplify and streamline the operations of educational institutions, ranging from schools to universities. With a focus on efficiency, transparency, and ease of use, Bidyaan offers a comprehensive platform to manage academic, administrative, and financial activities, ensuring seamless communication between administrators, teachers, students, and parents.

eBillBiz

Advanced POS and Billing Management Solution

eBillBiz is a powerful and flexible Point of Sale (POS) and Billing Management Solution designed to meet the diverse needs of supershops, restaurants, cable TV networks, and internet service providers (ISP). By integrating sales, inventory, customer management, and billing into one seamless platform, eBillBiz simplifies day-to-day operations, enhances customer service, and boosts overall efficiency.

4hostings

Domain and Hosting Services by DevsZone

4Hostings, a domain and hosting service provided by DevsZone, is dedicated to delivering reliable, secure, and scalable web solutions for businesses of all sizes. 4Hostings offers a comprehensive suite of domain registration and hosting services tailored to your needs. With a focus on performance and customer satisfaction, 4Hostings ensures a smooth online experience for both businesses and their users.

NIRIKHON

ULTIMATE GUARD OF YOUR COMPOUND

Nirikhon, a cutting-edge brand by DevsZone, offers an integrated suite of artificial intelligence-based solutions designed to streamline and enhance security, access control, attendance management, and visitor tracking. Nirikhon is crafted to serve a wide range of industries including corporate offices, manufacturing plants, residential complexes, and public facilities, offering unmatched efficiency and reliability through advanced automation and smart technology.

Attendance Solution

Nirikhon attendance solution provides a dynamic and paperless method for monitoring employee presence, and absence, and keeps track of late presence. Furthermore, it generates salary sheet reports based on the collected attendance data.

Visitor Management

Nirikhon Visitor Management Solution is an AI-driven system that utilizes face recognition technology for secure and seamless visitor access control. Designed for businesses, hotels, and corporate offices, it offers a contactless check-in process, real-time monitoring, and detailed visitor tracking.

AI Surveillance System

Nirikhon AI Surveillance System is an intelligent security solution that utilizes advanced AI to monitor and analyze in real-time. It enhances security by detecting unusual activities, tracking objects or individuals, and providing instant alerts.

NIRIKHON

ULTIMATE GUARD OF YOUR COMPOUND

ANPR Solution

Nirikhon ANPR Solution is a specialized Automatic Number Plate Recognition system tailored for Bangladeshi Bangla number plates, offering over 90% accuracy. Designed to seamlessly read and interpret local license plates, this AI-driven solution provides reliable vehicle identification for access control, parking management, and security applications.

BodyCam Solution

Nirikhon BodyCam Solution is a high-performance body-worn camera designed to provide real-time video recording and streaming for enhanced situational awareness and accountability. Ideal for law enforcement, security personnel, and field workers.

In-Vehicle Monitoring System

Nirikhon In-Vehicle Monitoring System is an advanced AI-powered camera-based solution designed for comprehensive interior monitoring of vehicles. Leveraging artificial intelligence, this system offers real-time analysis of driver behavior and passenger interactions, providing valuable insights and enhancing safety.

Custom Military Drone

Nirikhon Custom Military Drone is a specialized AI-based drone designed for military and law enforcement applications. This custom-built, military-grade drone features advanced artificial intelligence for precise surveillance, reconnaissance, and tactical operations.

Cleofan

AI Robot

Cleofan introduces an AI robot specialized in big data analysis, capable of extracting data from various sources like public web, deep web, dark web, and news media. Utilizing advanced AI and machine learning, it performs tasks such as crime prediction, intelligence analysis, and predictive policing. Cleofan offers three product packages: **AIBotLite, AIBotPro**, and **AIBotElite**.

Social Media Forensics

Introducing our comprehensive Social Media Forensics solution, covering all major platforms like Facebook, Twitter, TikTok, Instagram etc which can be used for sentiment analysis, social engineering, viral prediction, reverse engineering etc. Our three packages: **SocLite, SocPro**, and **SocElite**.

Cyber Forensics

Presenting our Cyber Forensics solution, a suite of tools designed for thorough cyber world forensics. Explore our three packages: **CFLite, CFPro**, and **CFElite**.

Deepfake Finder

Cleofan's Deepfake Finder is tailored for law enforcement agencies. The solution has the ability to identify deepfake images, videos, and more. This specialized product enhances investigative capabilities, ensuring accuracy and reliability to fight against digital fraud.

Video Footage Analyzer

Cleofan Video Footage Analyzer is an advanced AI-driven tool designed to analyze videos. It utilizes cutting-edge machine learning algorithms to detect objects, identify patterns, and extract actionable insights from video footage. Cleofan Video Footage Analyzer enhances operational efficiency by reducing manual review time and improving the accuracy of video data interpretation.

WHY CHOOSE DevsZone
