Company Profile

Registered Office:47/8 Indira Road. Tejgaog, Dhaka 1215
Corporate Office: 167/4, North Vasantek, Matikata, Main Road, Dhaka 1206, Bangladesh

Company & It's Mission

Systems & Services Limited was established in 1984 with the aim of supporting international enterprises in the implementation of works related to technical assistance at various engineering fields with major concentration in telecommunications. The company successfully conducted a number of projects for design and supervision works under the guidance of its foreign counterparts that allowed transfer of technology resulting in development of local expatriates. The outcome is the transformation of the company from a technical assistance team to a systems and network integration team.

The Mission of the company is to create lasting value for its esteemed customers, dedicated employees, and the communities in which it operates. The Company strive to excel in delivering innovative solutions, driving progress, and making a positive impact on the industries it serves.

Management Team & It's Commitment

Leading change in management team has always been the key to the company success. Starting as a technical assistance company under the leadership of highly experienced management team consisting of senior executives from Bangladesh Telegraph & Telephone Board (BTTB) the company is currently working as total solution company being led by relatively young but experienced management team having a combined market experience of over 50 years and an average age of below 45 years supported by a strong working force averaging below 30 years.

Taking the challenge of the 21st century meeting the demand of globalization the company is committed to provide the right solution for any needs of the enterprises and service providers working in the local market to be more efficient and competitive while maintaining the high level of product quality.

Services Offered

The company offers turnkey telecommunication solutions and related services to any customer requirement where the scope of works includes the following:

- Customer need assessment
- Network design
- Product outsourcing
- Project management and Implementation
- After sales support

Solutions Offered

The company is creating the foundation for the future providing end-to-end solutions for integrated applications on corporate and industrial automation increasing productivity while decreasing their relative cost of production.

The different solution packages offered by the company are as follows:

- Voice, data and video solutions (VSAT/Satellite, Fiber, Radio, TDM or IP PBX, local and/or wide area network, video conferencing, cable TV network, video broadcasting, internet access platform, VoIP gateway, unified messaging system, voice mail system, Vessel Monitoring System, Tele education/Medicine etc.)
- Facility management (employee movement management, access control, asset management, security and safety management, energy management, etc.)
- Industrial automation solutions (data acquisition, remote monitoring and control, etc.)
- Service management solutions (hotel management system, hospital management system, operations support system, billing system, etc.)
- Commercial lighting and sound solutions (cinema, theatre, etc.)
- Environment management system (complete line of HVAC and industrial waste treatment plants)

Registered Office:47/8 Indira Road. Tejgaog, Dhaka 1215
Corporate Office: 167/4, North Vasantek, Matikata, Main Road, Dhaka 1206, Bangladesh

Technology Partners

The company has a number of business partners as listed below (without limiting to) offering the right solution for any customer requirement:

- Aastra - offering a wide variety of analog and IP telephone sets.
- Advantech Wireless- offering satellite RF converters, amplifiers & BUCS, high-power modular SSPA systems, microwave components etc.
- Alcatel-Lucent - offering a wide range of carrier class platforms for wide area networking requirement of any service provider or medium to large enterprises using for TDM, FR, X.25, ATM and IP technologies.
- Alpha - offering a wide range of power systems.
- Amararaja - offering a wide range of maintenance free battery.
- Asia Pacific Zone Systems: offering a wide range of satellite communication equipment, audio & video broadcast equipment, RF transmitters etc.
- Ateme S.A: offering a wide range of broadcasting equipment.
- Aviat - offering highly reliable microwave systems, point-to-multi-point broadband radio system and OSS platform.
- Barco - offering a wide variety of display systems for presentation and network management applications.
- Cisco - offering a wide variety of routers and switches.
- Comtech Satellite Network Technologies: offering a wide range of satellite communication equipment
- EsnaTech - offering voice, fax and data messaging system.
- IDC- offering a diverse portfolio of products and solutions for radio, video, digital cinema and data networks
- JDSU - offering a wide range of telecom test device.
- Juniper - offering a wide variety of routers and switches.
- KNS- offering a wide range of marine satcom, tactical satcom.
- LifeSize - offering a wide range of HD video conferencing system.
- Norsat- offering a wide range satellite terminal, satellite components (LNBs, BUCs & SSPAs, microwave components etc.)
- Orion - offering a wide range of PDH mux and converter.
- Patton - offering a wide range of DSL solutions including network components and network termination units for small network requirements.
- Powerson - offering a wide range of maintenance free battery.
- Proxim - offering a wide variety licensed and unlicensed point-to-point and point-to-multi-point radio system.
- Raisecom - offering a wide range of PDH & SDH mux, different types of converter, Ethernet switch, Industrial switch and other multi-service equipment.
- ST Engineering iDirect: offering a wide range of satellite communications Equipment (HUB, Modem, Terminals etc.)
- Sumeru Microwave Communications: offering a wide range of Microwave antenna, VSAT antenna, Tracking antenna, Satcom antenna etc.
- Tejas - offering a wide range of SDH mux, Carrier Ethernet and WDM transmission equipment.
- Teledex - offering a wide range of telephone sets to meet the diversified requirement of hospitality industry.
- Telesis - offering low cost solutions for IP-PBX and rural exchanges of different capacities.
- Trueconf: offering a wide range of HD video conferencing system
- TX/Communications - offering highly flexible and reliable PBX and rural telephone systems.
- Juniper Networks: offering a wide variety of routers and switches and networking equipment.

Registered Office:47/8 Indira Road. Tejgaog, Dhaka 1215
Corporate Office: 167/4, North Vasantek, Matikata, Main Road, Dhaka 1206, Bangladesh

Products

The current product portfolio of the company includes the following:

- Access control system
- Air-conditioning system
- Audio/Video broadcasting systems
- Cables and accessories (copper, coaxial, fibre and hybrid)
- Call center
- CCTV system
- Ethernet switching system
- Facility power system
- Fire detection and firefighting system
- Grounding system
- Multiplex system
- Outside plant accessories
- PABX system (TDM and IP)
- Point-to-multi-point radio system
- Point-to-point radio system
- Property management system
- Racks & Accessories
- Raised Floor System
- Radio paging system
- Remote access server
- Routers & switches
- Rural telephone exchange
- Satellite communication system
- SCADA, remote monitoring and control
- SMATV system
- Sound system
- Structured cabling system
- Surge protection system
- Telemedicine/Teleeducation
- Tower and mast
- Video conferencing system
- Vessel monitoring system
- Voice mail system
- VSAT HUB systems

Registered Office:47/8 Indira Road. Tejgaog, Dhaka 1215
Corporate Office: 167/4, North Vasantek, Matikata, Main Road, Dhaka 1206, Bangladesh

Solutions

The following solutions can be served:

- Backbone and access network for service providers
- Broadcast solution management
- Employee management
- Energy management
- Enterprise LAN/WAN for voice, data & video applications
- Environment control (clean air, HVAC, etc.)
- Facility management
- Facility security and access control
- Fire detection and control
- Industrial automation (process management, operations & maintenance management, inventory management, employee management, etc.)
- Infrastructure development
- Internet access platform
- Internet gateway
- Network management centre
- Operations support system
- Remote alarm facility
- Remote monitoring and control of industrial facility
- Security management
- VSAT solution management

Registered Office:47/8 Indira Road. Tejgaog, Dhaka 1215
Corporate Office: 167/4, North Vasantek, Matikata, Main Road, Dhaka 1206, Bangladesh

Services & Customers

Services

In addition to complete turnkey solution or system supply the company also offers the following services:

- Network Design
- Project Management
- Site Survey
- Radio Engineering
- System Installation and Commissioning
- Work Supervision
- Training

Customers

A few of our valued customers are:

- Airtel Bangladesh
- Banglatrack
- Bangladesh Air Force
- Bangladesh Army
- Bangladesh Betar
- Bangladesh Coast Guard
- Bangladesh Computer Council
- Bangladesh Marine Academy
- Bangladesh Navy
- Bangladesh Police
- Bangladesh Railway
- Bangladesh Satellite Communication Limited (BSCL)
- Bangladesh Submarine Cable Company Limited (BSCCL)
- Bangladesh Telecommunications Company Limited
- Bangladesh Television
- Banglalink
- Boarder Guard of Bangladesh
- Chevron Bangladesh
- Dhaka Electric Supply Company Limited (DESCO)
- Fiber@Home
- Global Access Limited
- Grameenphone Limited
- Integrated Services Limited
- IpVision

Our clients & works .....

Since its inception in 1984 the company has completed a number of projects in the field of telecommunications partial list of clients and works mentioned below

Sl #	Customer (Prime Contractor)	End User	Year	Name of the Projects
1	Nokia Telecommunication	Bangladesh Telegraph and Telephone Board (BTTB)	1999	Installation & Commissioning work of 05 no. Nokia DMR 2000 radio link by replacing DR2600 under BTTB contract no. DP/F-18/IR/96-97/128.
2	Ekushey Television	Ekushey Television	2000	Supply, Installation & Commissioning of Ethernet network & PABX System.
3	Grameen Phone Ltd.	Grameen Phone Ltd.	2001	Installation & Commissioning of GSM Cellular base Transceiver Station
4	Siemens Bangladesh Ltd.	Sonali bank ltd.	2001	Local area network at Sonali bank ltd.
5	Beximco Computers Ltd.	Beximco Computers Ltd.	2002	Supply & Installation of Alcatel 2801 Mainstreel Data Termination Unit (DTT) for digital data network (DDN)
6	Global Access Limited		2002	Backbone radio link network for broadband service
7	Khulna University	Khulna University	2002	Supply, Installation & Commissioning of the campus wide fiber optic backbone for internet and computational facilities of Khulna University
8	Link 3 Technologies ltd.	EPZ, Savar	2002	Backbone radio link network for broadband service
9	Major Bridge Engineering Bureau, P.R. of China Paksey Bridge Construction Project		2002	Telecommunication System of Paksey Bridge Construction Project
10	Dhaka University of Engineering & Technology (DUET)		2003	Radio Link
11	Bangladesh Air Force (BAF)		2003	201 Microwave
12	Bangladesh Air Force (BAF)		2003	10+100 Line PABX x3 Nos
13	Bangladesh Telegraph and Telephone Board(BTTB)		2003	Karail Computer Server
14	Bangladesh Telegraph and Telephone Board(BTTB)		2003	LAN & Computer (Chairman Office)
15	Bangladesh Telegraph and Telephone Board(BTTB)		2003	Mux
16	Bangladesh Telegraph and Telephone Board(BTTB)		2003	HDSL E-1 (Part One & Two)
17	Dhaka Sheraton Hotel	Dhaka Sheraton Hotel	2004	Servicing, testing, maintenance and repair of SMATV System
18	Bangladesh Air Force (BAF)		2004	30 Channel Mux x6 Nos (Local)
