CORAL TECH SOLUTIONS LIMITED

COMPANY PROFILE

ABOUT US

Coral Tech Solutions Limited is a fast-growing technology company committed to delivering innovative, reliable, and scalable digital solutions. Over the past five years, we have built a strong reputation for excellence, serving more than 500 clients across various sectors including corporate, development organizations, manufacturing, and local government institutions.

OUR EXPERTISE

We specialize in developing end-to-end software solutions that empower organizations to improve efficiency, automate operations, and deliver better services to their customers. Our experienced team combines deep domain knowledge with cutting-edge technology to create products that stand out in performance and usability.

OUR CLIENTS

- Fair Electronics Ltd.
- Fair Technology Ltd.
- Grameen Health Care Limited
- Habitat for Humanity Bangladesh
- 500+ Union Parishads under Local Government Institutions

OUR SERVICES / PRODUCTS

1. **Amar Sheba**
   A complete citizen service platform widely used by Union Parishads to digitize certificates, licenses, taxes, and citizen service delivery.

2. **Amar VAT**
   A VAT management software designed based on National Board of Revenue (NBR) requirements (Preparing Application for Approval) for businesses to ensure accurate VAT calculation, return submission, and compliance automation.
3. **E-commerce Solutions**

   Customized e-commerce platforms tailored for modern businesses—integrated with payment gateways, inventory management, logistics, and customer engagement systems.
4. **CRM**
   Our CRM system is designed to help businesses manage their customer interactions more efficiently. It provides tools for lead management, customer tracking, communication history, task management, and sales pipeline monitoring. With a user-friendly interface and automation features, our CRM helps organizations improve customer satisfaction, streamline operations, and increase overall productivity.

91/1 Uttor Vasantek, Dhaka Cantonment, Dhaka – 1206

5. **POS – Point of Sale**
   Our POS solution is a complete retail management system that enables businesses to handle sales, inventory, billing, and reporting in real time. It supports barcode scanning, multiple payment methods, stock management, and detailed analytics. Designed for retail shops, supermarkets, and businesses of all sizes, the POS ensures fast transactions, minimized errors, and complete control over daily operations.

WHY CHOOSE US

- Proven experience with 500+ clients
- Strong presence in both public and private sectors
- Reliable after-sales support and continuous product updates
- Expertise in developing scalable, secure, and user-friendly software
- Commitment to digital transformation and innovation
