

Brief Company Profile

Overview

Neurosoft Technologies is a premier software development and services company based in Bangladesh, founded in 2020. The company has established itself as a trusted technology partner for various multinational corporations and government agencies, including the Government of Bangladesh through JICA.

About Us

Our Expertise

Neurosoft Technologies specializes in delivering high-performance, scalable, and innovative software solutions. Our core competencies include:

Custom Software Development:	Tailored solutions for businesses of all sizes and industries.
Enterprise Resource Planning (ERP):	Development and implementation of ERP systems for diverse business needs.
Global Software Implementation & Customization:	Expertise in SAP, SharePlex, XenApp, and ERPNext.
Software Modernization:	In partnership with mLogica, we upgrade legacy systems to modern, scalable architectures.
Specialized IT Training & Consultation	Delivered specialized training to the National Board of Revenue (NBR) on SAP standard modules, including MCF, PSCD, and Screen Personas.

Technology Stack

At Neurosoft Technologies, we leverage cutting-edge technologies to develop both microservices-based and monolithic applications. Our key technologies include:

- ▶ **Programming Languages:** Python, Java
- ▶ **Frameworks:** Hibernate, Spring Boot, Frappe Framework
- ▶ **Frontend & Mobile:** JavaScript, Ionic
- ▶ **Cloud & Containerization:** Docker, Kubernetes, Docker Swarm
- ▶ **DevOps & Automation:** Jenkins

Our Approach

Neurosoft Technologies is committed to providing cost-effective, user-friendly, and maintainable solutions. We prioritize open-source tools to reduce our clients' investment while ensuring high-quality and scalable software products. However, we remain flexible and accommodate our clients' preferred technologies to best meet their business objectives.

Technology Stack

At Neurosoft Technologies, we leverage cutting-edge technologies to develop both microservices-based and monolithic applications. Our key technologies include:

- ▶ **Programming Languages:** Python, Java
- ▶ **Frameworks:** Hibernate, Spring Boot, Frappe Framework
- ▶ **Frontend & Mobile:** JavaScript, Ionic
- ▶ **Cloud & Containerization:** Docker, Kubernetes, Docker Swarm
- ▶ **DevOps & Automation:** Jenkins

Why Choose Neurosoft Technologies?

- ▶ **Expertise in Global & Local Markets:** Experience in developing solutions for multinational corporations and government institutions.
- ▶ **Innovative & Scalable Solutions:** High-performing software tailored to evolving business needs.
- ▶ **Strong Partner Network:** Collaborations with leading global firms like mLogica for software modernization.
- ▶ **Customer-Centric Approach:** Solutions that prioritize usability, maintainability, and long-term cost-effectiveness.

Summary

At Neurosoft Technologies, we don't just develop software—we engineer solutions that drive business transformation and efficiency.
