(Graphic suggestion: Industry-specific icons or visuals representing each key market.)

Software/Website/App Development Services

PRIME TIME'S LIMITED is your one-stop shop for website and web application development, e-commerce portal development, and different software. We specialize in developing customized business solutions that meet our clients' requirements. Our results have shown that we consistently deliver competitively priced solutions that are flexible and robust.

Our designers and developers are accomplished generalists. Chances are, we've worked in your language or environment before. While we always choose the right tool for the job, we tend to focus on:

- We ensure quality at the highest level using the latest code testing, bug fixing, and QA utilities.
- Complete, rapid, wizard-driven development environment with optional custom coding.
- Responsive Web app development.
- Everything you need on the front and back end (data link, reporting, charting, data mapping, scheduling, etc.)
- Secure, standards-based, and extensible.

We strive to generate web traffic from visitors meaning that they may be searching for a related keyword on a search engine (as opposed to your brand name) or consulting a review website to learn more about companies in your industry. All projects are handled internally by talented teams of developers, designers, and product managers. We work in an agile environment on a variety of technology stacks.

IT Audit and Consultancy

We deliver a full range of IT auditing and consulting to assist organizations relying heavily on IT applications and automated systems in their day-to-day operations. We are well-positioned to assist banks, insurance companies, govt. agencies, retail stores, e-businesses, software vendors, data centers, and sizable organizations with automated key controls to improve either bank core systems, ERP systems, or automated financial and business reporting. Our IT audit team could also lend support in the areas of statutory audits, due diligence, and internal control reviews.

We have resources with CISA (Certified Information Systems Auditor), a globally recognized certification in the audit, control, and security of information systems. CISA gained worldwide acceptance with uniform certification criteria, with a high degree of visibility and recognition in IT security, IT audit, IT risk management, and governance. Our IT audit team helps address and identify issues related to IT-related risk for the improvement of business operations.

Our IT audit and consultancy services include:

- Assurance, Attestation & Readiness Services
- IT Organization & Business Systems Effectiveness
- Business Continuity Management (BCM)
- IT Process Management
- IT Security & Privacy Management

TECHNOLOGY PARTNERS/FACILITATORS:

We have further enhanced our services and products by forming strategic local and global alliances with some of the most experienced and renowned technology companies' vice versa we are providing local support with our expertise and resources for many companies around the world.
