LEADS, in turn, undertakes that it will maintain confidentiality of all communication as received.

About LEADS Corporation Limited

LEADS Corporation Limited has been a foremost information technology service provider since 1992 when it started its business as the exclusive distributor for Bangladesh of the global technology giant NCR Corporation, and took over the support service of NCR's then Bangladesh customers. LEADS has come a long way since, to become the leading provider of application software for the financial sector of the country, among its myriad of different products and services.

LEADS is involved in designing, developing, implementing and maintaining business application software for both domestic and overseas markets. LEADS provides Core Banking Solution (BankUltimus) for the Banking industry for both local and global market. In addition to the banking industry LEADS provides products, services and solutions for non-banking financial companies, agent banking, merchant bank, capital market, broker house, life insurance, enterprise resource planning (ERP), and many more.

LEADS also provides complete life cycle of software development services including system analysis, use case development, system architecture & design, system integration, native, web API development, UI/UX design, database design and administration, functional and system testing, quality assurance and project management.

In addition, LEADS provides diversified IT solutions and services that support attainment of client's business objectives like network infrastructure building, plastic card personalization, data center, contact center, data warehousing/mining, as well as delivery, installation & maintenance of computer servers, storage, PCs, backup solutions, note sorting machine, cash deposit machine, etc.

Over the last couple of years, LEADS has also moved into disruptive technologies like BLOCKCHAIN, Internet of Things (IoT), Artificial Intelligence (AI) etc.

Today LEADS is considered as one of the renowned ICT Solution Providers of Bangladesh and has become an ICT partner of choice for managing people, process and environment. Continuous thrust for improving quality is the reason behind its success. From a paltry 12 individuals, which LEADS inherited in 1992, it has now a core competent team of 280+ personnel.

Vision

To be a model of excellence as an ICT Partner which our Stakeholders would love to be associated with.

Mission

To understand our customers' business and technology requirements and to deliver value-added products/services that enable them to reach their goals and transform their business models.

Other Information

Certifications:

LEADS is an ISO 9001:2015 certified organization for design, development and sale of software. To demonstrate our commitment to quality and help our customers achieve sustainable business results, LEADS has been applying ISO 9001:2015 Quality Management and Quality Assurance standards in all company activities.

LEADS is a CMMI DEV - 5 Appraised since 2016. At LEADS, solutions mean enabling consistent and reliable software, infrastructure and hardware delivery services. We deliver customized scalable solution to meet customers' specific needs. We always put customers' business at the forefront, with a focus on resolving problems and ensuring that the end users are up and working quickly. We combine industry-leading services with industry-leading quality. LEADS is committed to devising and implementing innovative solutions that suit individual customer's specific needs. All these are done in strict compliance of the requirements of CMMi DEV - 5 Methodology.

Solutions Offerings:

Our software solutions create custom business applications, providing full lifecycle support throughout delivery. Using a phased approach, our professionals define application requirements, design application functionalities, implement the application and monitor during post-implementation support. When you choose LEADS, you benefit from deep technical expertise, long industry experience and strong partnership. We use unique tools, frameworks and reusable code that enable us to accelerate application development in specific environments.

LEADS' network infrastructure building solutions provide the single point of contact for resolving networking issues in your corporate environment, allowing your organization to remain productive and focused on your goals. The combination of our service desk and on-site support services results in an end-to-end solution for your centralized and distributed environment. These solutions support network components including all active and passive devices.

Our services are conveniently accessible through various channels, including telephone, the web, e-mail and fax. You also benefit from flexible service options that support your changing business needs without up-front capital investment.

LEADS represents (i) **CISCO** for Networking Active Devices; (ii) **EntrustDataCard** for Plastic Card Personalization system; (iii) **Dell** for Server, Storage, Desktop Computer, Notebook and Networking Devices; (iv) **Teradata** for Data Warehouse Solution; (v) **VeriFone** for POS Terminals; and (vi) **Glory** for Note Sorting Machine & Cash Deposit Machine.

Expertise in Operating System

LEADS has been maintaining and supporting for years different variants of UNIX that includes NCR Unix, SCO UNIX/ OpenServer/ UnixWare, Linux. LEADS also has a number of certified professionals on Microsoft platform, as a Microsoft Certified Gold Partner. Hardware and Software personnel are trained from home and abroad on the existing as well as new tools & products. The process of keeping the resources up to date with latest technology is in place.

Expertise in Development Tools and Languages

LEADS maintains a highly skilled group of software professionals equipped with various technologies as follows:

Analysis & Design	:	OOAD & UML
Architecture/Framework	:	Client-Server, n-Tier & CSLA.NET
Application Server	:	MS IIS, Oracle AIS & Apache
Languages/ Development Tools	:	C#, VB.NET, VB6, ADO.NET, XML, Java, Oracle Developer & COBOL
Web Technologies	:	HTML, DHTML, PHP, ASP, ASP.NET, VBScript, JavaScript, JSP & XML
Component Technologies	:	COM, DCOM, COM+, WINAPI, J2EE & EJB
Other Tools	:	Crystal Reports, Visual UML, CodeSmith, VSS, VbExpress & NetAdvantage

Expertise in RDBMS

LEADS has proven expertise in relational database management system. The RDBMS includes Oracle, Informix, Microsoft SQL Server, MySQL. The software professionals are trained on database administration and tuning of these products. As an Advantage Partner of Oracle, LEADS maintains a pool of resources in the role of pre-sales, implementation and support. To match the need of high-performance Enterprise Data Warehousing and Business Intelligence for large customers, LEADS also has invested in developing resources for Teradata Data Warehousing Solution and has a number of resources trained on Teradata products & services.

Service Offerings to Customers:

- Web Based Application
- SaaS and Cloud Enablement
- Database Application
- Custom Mobile Apps Development Services
- Product Development
- Application Migration
- Database Migration
- Content Management System

Project and Process Management

For software project management, LEADS follows PRINCE2 and PMI Methodology. LEADS has certified project managers to manage project professionally. LEADS follows CMMI DEV - 5 Methodology for managing the process of delivering and implementing software solution.

In-House Training Facilities

LEADS maintains an in-house Training Center where regular classes are held for its own staff. Whenever a person acquires knowledge about any new product, it is transferred to others in the organization. The same facility, where all necessary equipment are installed, is used to impart training to LEADS' customers.

Service Facilities in Other Cities

LEADS maintain Branches in Chittagong, Sylhet, Cumilla, Khulna, Borishal, Bogura, Rajshahi and Rangpur where required technical personnel are posted. Adequate stocks of spare parts are kept there to support customers in those regions. In addition, LEADS' Engineers have been implementing and maintaining installations all over the country.

Research and Development Lab

To keep the momentum of continuous thrust for exploring new era of technology, LEADS has a few R&D Labs for specific technologies, such as Cisco IPCC, BLOCKCHAIN, IoT etc. Developing secured ISO 8583 messaging format for integration is one of the remarkable outcomes of R&D lab.

Solution Provider

LEADS offer system study, system design, development, implementation, support and maintenance, as well as project management, project service and consultancy service on variety of platforms. LEADS has developed solutions out of many years of experience and professional expertise. Our core focus is to design and develop solutions that suit tomorrow's business requirements.

LEADS offer flexible delivery options which include total or shared responsibility for projects. Work is undertaken at the clients' location or at LEADS' development center. Work can also be performed for any stage of the project life cycle.

LEADS provide on-site / off-shore software development solution and custom application development along with technical support and maintenance services. It offers solutions in almost all major areas with special focus on commercial banking, investment banking, merchant banking, manufacturing, sales, distributions, MIS etc.

Turnkey projects have always been LEADS' forte. The methodology adopted includes a mix of on-site and off-site activities. Study and analysis are the activities that are performed on-site in close interaction with the customers and end-users. System design, development and testing are performed off-site in LEADS' premises. It has also successfully participated in 'Joint Application Development' projects, where a number of parties have developed various components of an Application Package.

LEADS is in a unique position to provide and support end to end IT Solution covering both Infrastructure and Business Application part. The great value-add a customer can have is to get single point of service for all IT needs.

Computing Solutions

LEADS has been the pioneer in providing Computer System Solution Provider in Bangladesh since 1998 and has a strategic alliance with Dell. Headquarter in Austin, Texas, USA, Dell Inc. (www.dell.com) listens to customers and delivers innovative technology and services they trust and value. Being a local partner, LEADS has been representing all range of Dell products in Bangladesh. A list of these products is as follows:

1. Laptops & Tablets,
2. Desktops & Workstations,
3. Server, Storage & Networking,
4. Printer,
5. Packaged Software etc.

LEADS is mainly focused on providing solutions to its customers. Currently we are offering solutions in the following areas:

1. IT Infrastructure Management,
2. Intelligent Data Management,
 - a. Data Consolidation,
 - b. Data Protection,
 - Data Achieve,
 - Data Backup,
 - Data Migration,
 - Data Replication,

II. Life Insurance –

This is a web-enabled life insurance solution that incorporates all functionalities necessary for core life insurance business processes. It includes all back-office and front-office functions for everyday operations as well as accounting and financial management, investment insurance and other life insurance product management capabilities.

Features of the Software:

- Fully Integrated Life Insurance Solution
- n-tier architecture
- Centralized database
- Remotely accessible application
- Web based application
- 24/7 service availability
- Multi option Backup
- MTTR (Mean Time to Recovery)
- Full Audit trail
- Capable to handle the millions of data
- Customizable

- High data security.
- Capable to provide all kind of management report.
- Able to increase overall market share.

Securities of Software:

- Application and database level security
- OS level security
- Authentication access control
- Maker & Checker
- Business continuity ensured
- Data encryption facility
- Oracle provides the more technology for data security and availability, such as Data Guard, RAC and so on

Resource/Environment of the software:

- Oracle 10g or upper database
- Oracle 10g application server
- Database server (LINUX or Windows)
- Application server (LINUX or Windows)
- Client PC (Windows)
- Browser (IE 6 to Upper, Opera)
- A Core IT & Business team
- Network LAN/WAN
- All time power availability

III. CenterPoint (ERP)

This is a robust and flexible ERP suite of Distribution, Supply Chain, Inventory Control and Integrated Financial Applications for manufacturing, sales, distribution and accounting. The software modules deal with all aspects of your business, from replenishment to route management and proactive marketing. And no matter how complex your business might be, chances are we can adapt ourselves to your needs.

Features & Functionalities

Human Resources Management

- ✓ Employee Profile (Personnel, Educational, Experience, Training)
- ✓ Define Reporting Hierarchy, Department, Functional Role
- ✓ Transfer Information
- ✓ Promotion
- ✓ Appraisal
- ✓ Punishment/Award Information

Leave Management

- ✓ Flexible leave definition
- ✓ Dynamic leave approval hierarchy
- ✓ Leave Calendar

- ✓ Online leave application
- ✓ Manage leave information
- ✓ Leave encashment facility

Payroll Management

- ✓ Define Grades
- ✓ Define Salary structures in each grade
- ✓ Assign Grade and Salary Structure with each employee
- ✓ Define pay frequency
- ✓ Define and Configure Increment
- ✓ Define and Configure Bonus / Special Intensive
- ✓ Advance against salary
- ✓ Scheduling for adjustment of advance
- ✓ Salary Generation
- ✓ Generate individual pay slip
- ✓ Arrear Calculation and disbursement
- ✓ Integrate with financial accounting
- ✓ Receive data from Attendance System (in specific format given by payroll system)

Product Management

- ✓ Define Product Profile
- ✓ Define Bonus, Discount, TP rules
- ✓ Define Product wise Sales target Information
- ✓ Sample & Gift allocation for Sales force.

Inventory Control

- ✓ Define SKU
- ✓ Reorder Policy & Inventory Forecasting
- ✓ Inventory Valuation
- ✓ Stock Movement Policy (FEFO, FIFO)
- ✓ Stock Transfer
- ✓ Requisition
- ✓ Issue /Receive/ Return
- ✓ Stock Adjustment (Surplus, Shortage)
- ✓ Tracking according to Requisition /Sales order
- ✓ SKU wise Stock Ledger

Warehouse Management

- ✓ Warehouse Information & Structure
- ✓ Define SKU Measurement
- ✓ Multiple Warehouse Handling

- ✓ Pick List
- ✓ Put List
- ✓ Space optimization

Sales and Distribution

- ✓ Define Customer Profile
- ✓ Define Referral Profile
- ✓ Mapping Referral & Customer to Field Force
- ✓ Define Sales Area (Region, Area, Market)
- ✓ Define Sales Target
- ✓ Define credit policy against Customer and Field force
- ✓ Record sales persons work plan (monthly/weekly/daily basis)
- ✓ Record Daily Call Report of Field Force
- ✓ Sales Forecasting
- ✓ Sales Performance Monitoring

- ✓ Define Customer wise Credit Limit
- ✓ Define Product wise Credit Limit
- ✓ Define Credit Cycle

Depot Management

- ✓ Define Depot
- ✓ Manage online and Offline Depot
- ✓ Daily data synchronize between Central Depot and Distribution Depot

Promotional Activity Management

- ✓ Define Promotional activities
- ✓ Budget for Activities
- ✓ Allocate promotional budget to products

Procurement

- ✓ Supplier Profiling
- ✓ Quotation
- ✓ Purchase Order
- ✓ Goods receive note (GRN)
- ✓ Clearance for payment
- ✓ Integration with Payable Management
- ✓ Integration with Financial Accounting

LC Management

- ✓ Import LC
- ✓ Export LC
- ✓ Local LC
- ✓ Back to Bank LC
- ✓ Integration with Procurement
- ✓ Integration with Financial Accounting

Payable Management

- ✓ Payable register
- ✓ Scheduling and Re-Scheduling Payment
- ✓ Payable forecasting
- ✓ Scheduling and Re-Scheduling Receivables

Financial Accounting

- ✓ Define Chart of Account, GL Accounting Period
- ✓ Journal Entry, Journal Voucher, Payment / Received Voucher, Bank Book
- ✓ BL, IS, CF, Statement of Change in Equity
- ✓ Integration with Payroll, Fixed Asset, Inventory, Sales, Payable, Receivable

Fixed Asset Management

- ✓ Asset Register
- ✓ Leasing Installment Register
- ✓ Insurance Installment Register
- ✓ License Renewal Register
- ✓ Tax Payment Register
- ✓ Asset Disposal Register
- ✓ Asset Adjustment Register
- ✓ Asset Transfer Register
- ✓ Asset Repair and Replacement
- ✓ Depreciation scheduling and provisioning

- ✓ GL Integration for Assets
- ✓ Periodical depreciation, provisioning, devaluation report.
- ✓ Asset Statement Report

IV. CAPITA (CAPITAL MARKET)

Back office management for Capital Market

- Supports operations of Multiple Stock Exchanges
- Maintain multiple branch/booth
- Product creation and management
- Portfolio management
- Parameterized charges setup and maintenance
- Margin loan policy setup and maintenance
- Supports both conventional and Islamic margin system
- Compliance with regulatory regulations
- Corporate action maintenance
- CDBL transaction processing and reconciliation
- Stock dealership maintenance
- Accounting
- Auto check printing
- User Administration
- Activity log/Audit Trail
- Web Enabled System
- Central Database

Solution Platform:

- Operating System: Windows or Linux
- Database: Oracle
- Application Server: Web Logic
- Client: Web Browser (Mozilla Firefox or Internet Explorer)
- Reporting: Oracle BI Publisher

Services Offerings to Customer:

- Web Based Application
- SaaS and Cloud Enablement
- Database Application
- Custom Mobile Apps Development Services
- Product Development
- Application Migration
- Database Migration
- Content Management System
