OSCL is offering a Smart Vehicle Tracking Solution with the brand name of Sky Tracker which is providing the VTS service by using the GPS tracking platform. OSCL have a highly dedicated, trained and expert technical team for

The Benefits of Using:

SERVICE THAT YOU CAN RELY ON

Instead of providing cheap GPS devices in the market, Sky Tracker provides most technologically advanced GPS device with 1 year of replacement guarantee.

Track every movement of your vehicle in real time over Google Map from any web browser or any smartphone through our platform. Both real-time and historical playback available.

ENGINE CONTROL

Does your vehicle go in wrong hand or stolen? You can stop the engine of your vehicle instantly from our easy to use smartphone application or website or by calling our 24/7 customer care. You will also be notified whenever engine starts and off.

To make intelligent business decision or maximum utilization of your fleet management. Our software helps you with various data like trip history, driver's performance, ignition and speed variation and power-

ALERT & NOTIFICATION

Real-time Alerts & exception Notifications helps to increase the Security of the Driver & Vehicle as well as to have more control over the daily activities. Alert like

speed limit violation, Geofence violation, maintenance alert, Dispatching notification.

GEO FENCEING

Spatial fences of all shapes and sizes can be digitally set to restrict your vehicle to a prescribed geographic region. If your vehicle crosses the geo fence you will get push notification and alert on your smartphone. So, you don't have to worry if your vehicle goes out of an area or district.

SOS – EMERGENCY BUTTON

When you push the emergency button, it will generate & send SMS alerts to predefined numbers.

AUDIO / SOUND

By using a special feature of Sky Tracker device you can easily hear the sounds or conversations in-side your car.

1 YEAR WARRENTY

All our devices are well built and QC passed and for ease of mind it comes with 1 year of standard replacement warranty. Our devices are IP6 standard which means dust and water proof.

The little things can make a big difference, which is why we've paid special attention to the details of our VTS solution. We have designed our platform with strong security features to keep your private data safe. In addition, we have included complete localization features for users to track assets anywhere in the world
